Every Monet home begins with a foundation of comfort and connection; an open great room, a bright and inviting kitchen, and a private yard that feels like an extension of your living space. From there, thoughtful options let you personalize, creating a home that reflects your lifestyle and the way you want to live.

The Monet balances style and simplicity in every detail. An open-concept great room, generous suite, and inviting outdoor space create a home that feels both thoughtful and comfortable. Perfect for those who want low-maintenance living without sacrificing warmth, this plan provides just the right amount of space in a setting designed to feel welcoming every day. Optional features, like a fireplace or garage side-yard door, allow even more personal touches.
